INTRODUCTION: Grenada Drug Information Network (GRENDIN)

The Grenada Drug Information Network (GRENDIN) is the mechanism through which Grenada collects, analyzes, and disseminates information on drugs, and related information, for the purpose of monitoring trends, developing policy, and implementing appropriate programmes and responses. It is comprised of institutions which work in the area of drug control. The objectives of GRENDIN are: to provide accurate, relevant and timely statistical data on the nature and extent of the drug situation in Grenada; to increase coordination, dialogue, and cooperation among the institutions which work in the area of drug control, through the exchange of drug-related statistical information; to inform policy makers and the general public on drug trends and related matters. GRENDIN was established on 11 December 2002, and endorsed by cabinet, effective 22 December 2002.

The Drug Control Secretariat is the National Observatory on Drugs in Grenada. It performs the administrative functions of GRENDIN.
