NATIONAL SCHOOLS’ POLICY ON DRUGS

With the commencement of the new academic year in September 2010, officials of the Drug Control Secretariat are reminding Principals, Staff and Students of the School’s Policy on Drugs.

According to the Secretariat in accordance with the National School's Policy on Drugs, "The Ministry of Education expressly forbids the use, sale and distribution of alcohol and alcoholic beverages, tobacco products, hemp, controlled drugs or any mood-altering substances by or at any school function.'

The Secretariat is also informing students that in accordance with the Policy, 'Students are prohibited from using, being under the influence of, possessing, distributing, selling, or being in the chain of sale or distribution of alcoholic beverages, tobacco products, hemp, controlled drugs, drug paraphernalia, while at school, or at any school-sponsored event.'

The Policy, which was approved by cabinet in 2002, has four principal goals:- To promote a healthy lifestyle among students, free of drug use; To provide a mechanism for the appropriate identification of alcohol, tobacco and drug-related problems, and early intervention among students; To provide firm, consistent, and equitable disciplinary action regarding tobacco, alcohol-related or drug-related infractions, and To provide support services to students with an identified tobacco, alcohol or substance abuse concern or problem.

Procedures are established in the Policy for dealing with issues such as possession of drugs, use of drugs and sale and distribution of drugs on school premises or school-organized activities. It also provides for relevant remedial action to be taken if students violate the Policy.

Another key element of the Policy is the support of parents and guardians in the area of drug prevention among their children. This support is of paramount importance in the Policy and in the national drug control campaign.

During the period 1 January 2001 to 31 December 2009, 448 students were arrested and charged for various offenses in Grenada. Forty-three students were arrested and charged for possession of drugs, while one each were arrested for drug trafficking, and possession of a drug apparatus.
Without doubt, problems associated with the consumption of alcoholic beverages, have created havoc and distress to many families in Grenada. These problems include health, legal, socio-economic and other related issues. As new alcoholic beverages are introduced unto the market, the appeal to consume these products poses significant pressure on our students and young people, to use these products.

Several recommendations have been made to curb this problem. A major issue raised was that the Liquor Dealers’ Licences, CAP 174, should be amended to include the following: Consumption of alcoholic beverages by juveniles; Sale, delivery, supply of alcoholic beverages by and to juveniles; Sale, delivery, supply of alcoholic beverages on schools’ premises; Purchasing of intoxicating liquor by juveniles, and advertisement of alcoholic beverages in the media.

The Drug Control Secretariat is concerned about the serious state of affairs regarding the devastating consequences of alcohol. It is time for action. The time is now! Let us be bold and decisive and take the necessary action to stem this systemic problem. An excellent place to start is by amending the Liquor Dealers’ Licences, CAP 174, to include the above recommendations.

Good day readers! I am Esther Munga, a MPH student at St. George’s University (SGU) who is completing my requirements for the MPH degree with a practicum at the Drug Control Secretariat (DCS), in July 2010. I came to Grenada from Kenya. I’ve attended briefings about a survey that was conducted at Her Majesty’s Prison regarding crime and drug abuse with senior members of multiple ministries. I have also had the opportunity to be present at the exploration of further cooperation between the DCS and the Probation Office as well as talk to young gentlemen about myths and facts about drugs, and Laws relating to drugs in Grenada, and Kenya. I also did data analysis for GRENDIN.

This process has enlightened me on the advantages and challenges of running Government programs in small countries. Creativity and the ability to network are important for success, something the DCS team has done successfully I hope I have left a positive footprint there, and I would encourage more people to intern with the DCS. Thank you to the team for your warm hospitality. I will miss Grenada terribly, Kwa heri ya kuonana (Until we meet again…)

Officers from the Drug Control Secretariat held a series of meetings with newly appointed Heads of Institutions who are part of the Grenada Drug Information Network (GRENDIN). Meetings were held with Ms. Ellen Gabriel, Chief Pharmacist Ag), Pharmacy Unit at the Ministry of Health, and Mr. Erwin Henry, Chief Analytical Chemist at the Produce Chemist Laboratory. The meetings were held to brief these Officers on the work of GRENDIN and related drug control matters.

The period June to August 2010 presented the Drug Control Secretariat with several opportunities to conduct drug prevention programs at various summer programs and training sessions. Such sessions were conducted with juvenile offenders, teachers, youth and community workers, adolescents and young children, and Police Recruits. Issues addressed during these sessions included: Drugs and The Law; National Schools’ Policy On Drugs; Leadership; Drug prevention Skills. These sessions were conducted in collaboration with various agencies including the Ministry of Youth empowerment, Ministry of Education, Young Women’s Christian Association, Churches and the Royal Grenada Police Force (RGPF).

Mr. James Clarkson has been reappointed to serve another year to serve as Commissioner of Police of Grenada. According to Prime Minister Hon. Tillman Thomas, who is also the Minister responsible for Grenada’s National Security, “On the advice of the Public Service Commission, Mr. James Clarkson has been reappointed as Commissioner of Police by the Governor General, Sir Carlyle Glean, under the same terms and conditions as the previous contract. This reappointment is based on Commissioner Clarkson’s satisfactory record of performance and his willingness to serve for another year”.

A major drug bust occurred on 9 August 2010, with the seizure of 9.5 kilos of cocaine by the Royal Grenada Police Force, as part of its ongoing drug interdiction program. Meanwhile, there were several large-scale eradication exercises of cannabis plants in July and August 2010.

The Drug Control Secretariat expresses condolences to the family of the late Cyril Dickson, who passed away 28 July 2010. Mr. Dickson was a former member of the Royal Grenada Police Force (RGPF), and Social Worker and Counselor at Her Majesty’s Prisons. Mr. Dickson was actively involved in various aspects of drug control. In 2006, the Drug Control Secretariat funded the attendance of Mr. Dickson to the Caribbean Institute on Alcoholism and Other Drug Problems (CARIAD), in Tobago. Mr. Dickson made outstanding contributions in other areas such as athletics, music, and community development.
