

Government of Saint Lucia

Department of Health and Wellness

Health System Strengthening Project

Terms of Reference

Communications Specialist

May 20, 2019

Introduction

The Government of Saint Lucia (GOSL) has obtained financing channeled through the World Bank (WB) for the financing in the amount of USD20million towards the implementation of the Health System Strengthening Project to support the Government of Saint Lucia's initiative to improve the accessibility, efficiency, and responsiveness of health service delivery within the health sector.

This financing supports the GOSL strategy for achieving National Health Insurance in addition to the implementation of an essential benefits package, enhancement of Primary Health Care in terms of service delivery and improvement of health infrastructure and the health sector's preparedness and response for public health emergencies. Activities conducted under the Project will take place alongside ongoing developments, including the rollout of the essential benefits package, which is expected to be conducted in phases, will take upcoming transitions and expenditure pressures into consideration. The Financing Agreement and Project Appraisal Document provides further details on the project activities.

The Financing Agreement requires that the Government of Saint Lucia establish a Project Implementation Unit with staff satisfactory to the World Bank for the implementation of the Project which includes financial management, procurement, safeguards and monitoring and evaluation.

The Department of Health recognizes that the development and implementation of an effective communications plan is important to achieve the buy-in of both internal and external stakeholders and to generate awareness of project activities to support achievement of expected outcomes. It is therefore imperative that the services of a Communications Officer be contracted to bolster the project management team and to complement the capacity of the Department of Health and Wellness to oversee and facilitate the implementation of the Health Systems Strengthening Project

Objective of the Assignment

The objective of this assignment is for the design and implementation of a communication strategy to inform personnel within the health sector (internal stakeholders), users of the Primary Health Care facilities and the wider public (external stakeholders) of the project activities to be implemented under the Health System Strengthening Project.

Scope of Services

The individual consultant is required to undertake the following:

To prepare an outreach strategy to the community to raise awareness of the existing client feedback and Grievance Redress Mechanisms (GRMs) available through the project through which beneficiaries can share feedback.

To develop within the framework of the project an internal and external communications and information strategy and carry out communications activities to promote and share information about the PHC project

To developing a communication strategy specific to the project and as much as possible integrating existing Communication Plans already in existence.

To produce public relations materials, edit and layout reports and other promotional material, and assist with planning, publicizing project activities and milestones

To prepare and/or edit communications materials relevant to the project inclusive of speeches, press releases, articles, scripts for public service announcements and interview discussion point.

To collaborate with communications partners and service providers including advertising agencies, and publishing houses.

To organize and participate, as required, in communication activities and events, including press conferences, interview and press visits.

To act as the Communication Focal Point of the project including management of press and other media inquiries

Be responsible for the day to day management and coordination activities related to the management of the visibility of the project. This will require that the Communication Specialist liaise with technical teams at World Bank and the Department of Health and Wellness to ensure timely implementation of project activities.

The consultancy is full time and will be substantially performed on site at the Department of Health and Wellness.

In particular, the Communication Specialist will work closely with the team of the Department assigned to the Project and will be required to report to the Permanent Secretary of the Department of Health and Wellness.

Specific Scope of Services

The specific responsibility and specific tasks of the Communication Specialist are as follows:

1. Review all present and past material generated by the Department of Health and Wellness in developing the strategy (determine areas for integration with other existing strategies)
2. determine the extent to which existing products can be utilized and incorporated in the development of new material as part of the project's communications plan.
3. Undertake consultations with the management to assess the internal and external communications needs as will be required in the development of the projects communication plan.
4. Develop and update regularly the communications a strategy
5. Develop a communications plan for to promote and share information spec
6. Coordinate and manage the preparation, publication and dissemination of information of the project in coordination and collaboration with Bureau of Health Education. This shall include helping to determine the best medium and communication tools to be used to achieve dissemination goals and target audiences.
7. Produce public relations materials; edit all complex communication meant for public consumption, as well as facilitate and assist with the planning, publicizing, and carrying out special complex events. This should also be inclusive of, but not be restricted to, press kits, factsheets, brochures and graphics.
8. Develop and edit communications material including speeches, press releases, articles, interviews, magazines, newsletters and presentations.
9. Conduct and/or coordinate any other assignments related to knowledge management, marketing, communications, branding and outreach as may be required to effectively monitor and evaluate various communications tools and activities, to measure the impact on achieving the overall objectives.
10. Organise and participate in communications activities and events including staff education activities, press conferences and press visits.
11. Manage press and other media enquiries.
12. Participate in relevant trainings and workshops; organise and facilitate trainings and workshops as necessary.
13. Contribute articles and/or reports and other content as it relates to information on the project communicated via the Department of Health's website and social media platforms.
14. Assist in tracking and effectively communicating the results and impact on projects interventions via web-based tools or any other means for effective reporting and demonstration of project's value impact.
15. In collaboration with the Corporate Planning Unit, prepare the annual plan of activities including target groups and expected outcomes.

16. Advise and regularly report to the Project Coordinator, Permanent Secretary, on project implementation activities, program plans and recommend project implementation strategies.
17. Report and provide feedback to the Project Coordinator on project strategies, activities, progress and challenges.
18. Prepare quarterly reports including narrative, status, financial on progress for management, Project Implementation Unit and other relevant bodies, in accordance with approved reporting formats for the project.
19. Work with the relevant stakeholders and other government agencies (GIS, NTN, BHE) in developing products for project visibility and its strategic outcomes.
20. Accompanying field visits to target regions implementing the Results Based Financing (RBF) Pilot to provide inputs and guidance to ensure visibility and update stakeholders on progress of the intervention.
21. Use social media and other interactive tools to give project visibility (highlight project achievements, challenges and successes)
22. Assist with development of instruments that may be used for beneficiary feedback and citizen engagement
23. Work with the health facilities to define the citizen engagement/GRM tools they are using and prepare a strategy with outreach and consultations to health services beneficiaries under the project to confirm their use of the citizen engagement/GRM tools
24. Any other related duty as assigned.

In undertaking the assignment, the Communication Specialist will work closely and collaborate with the Technical Team of the World Bank, the Steering Committee, relevant line Ministries and Agencies, primary project beneficiaries, stakeholders, and the Department of Health and Wellness.

Reporting Mechanism
